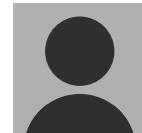

# Graphical Elements - Shapes

15

The image displays four distinct graphical elements, each consisting of a main body with various nested and overlapping shapes, accompanied by CSS class names and their descriptions.

- .css-crosslink-representation-input**: A light grey rounded rectangle with a dark grey border. It features a small red 'X' icon in the top-left corner and dimensions of 29px height and 56px width. The inner area is divided into three horizontal sections: a top section with height 15px, a middle section with height 60px and background color .css-grey, and a bottom section with a rounded rectangular input field.
- .css-crosslink-representation-output**: A large light grey rounded rectangle. It includes a small grey tab-like element on the left side. It has two horizontal sections: a top section with height 15px and a bottom section with height 60px.
- .css-external-link-representation-input**: A light grey rounded rectangle with a red border. It features a small red 'X' icon and a yellow lock icon in the top-left corner, and dimensions of 35px height and 35px width. It contains a large red rounded rectangular input field and a white rounded rectangular output field.
- .css-external-link-representation-output**: A light grey rounded rectangle with a black border. It features a small yellow lock icon in the top-left corner and dimensions of 39px height. It contains a black rounded rectangular middle area and a white rounded rectangular bottom area.

Each element is timestamped with "Linked on: 24/07/2014".
